1. PREAMBLE

- a) These rules apply to the modular postgraduate programmes and modules listed above. The rules should be read in conjunction with the relevant Programme Structure, Programme Specification and online Module Directory entries. The Module Directory will give detail of assessment arrangements. The Programme Structure will identify which modules are core for the Programme.

- b) A taught module is any assessed component excluding the dissertation or equivalent. A core module must be taken as part of the programme structure and passed, with no condonement of marks below a pass allowed.
- c) The maximum period for completion of studies using credit accumulation is six years (normally five years to complete all taught elements and a further one year to complete the dissertation (or equivalent)). The maximum period of study is measured from the point at which a student first registered for a module that was being used towards the award.
- d) The credit lifetime for any module is six years.
- e) Masters degrees can be awarded with Distinction or Merit.
- f) It is for the Board of Examiners to determine whether the criteria for an award have been satisfied.

2. PASS MARK

- a) The pass mark for all modules is 50. Credits are only awarded if the module is passed. In cases where failure with a mark of 40 is condoned, the credits are not awarded however the module mark will still be used to calculate the overall weighted average for the taught modules and the overall weighted average.
- b) For the purposes of these rules taught module averages, the overall weighted average for the taught modules and the mark for the dissertation or equivalent will be rounded to the nearest whole number – i.e. 49.5 will count as 50, 49.4 as 49.
- c) All placements are assessed on a pass/fail basis. They are non-credit bearing but must be passed.

- d) For modules HS632, HS918, HS955 and for all ACP and MaCE pathway modules - Progression is based on passing all assessments and all modules. Students are required to pass all individual components of assessment.
- e) For Leadership in Health and Care – Progression is based on passing all core modules.
- f) For the HS632 Pharmacology Examination, the student must achieve a mark of 80 to be awarded a PASS.
- g) For the HS632 Numeracy Examination the student must achieve a mark of 100 to be awarded a PASS.

Failed work will normally be resubmitted within four weeks of students receiving their marked work.

Progression is between modules, rather than levels or stages.

4. REASSESSMENT

4.1 Reassessment for taught modules

- a) Students who have failed any taught module may have a second attempt at the assessment for the module(s);
- b) Only one opportunity to resubmit the failed component will be offered;
- c) When presented to the Board of Examiners at the end of the year, marks for resubmissions will be subject to capping in the following way. A pre-resubmission module aggregate will be calculated using the failed mark(s):
 - i) If the pre-resubmission module aggregate was below the pass mark then the resubmission can improve the module aggregate mark up to the pass mark only.
 - ii) If the pre-resubmission module aggregate was above the pass mark then the resubmission cannot improve the module aggregate mark. The module aggregate is capped at the pre-resubmission aggregate.

For assessments resubmitted in-year, when the pre-resubmission module aggregate is not known, the mark for each resubmitted component will be capped at the pass mark.

- d) The Board of Examiners will reinstate the module aggregate mark for a previous attempt at a failed module if it is higher than the mark for the most recent attempt.

4.1.1 If a student fails a module on the second attempt at the assessment, no further attempt is allowed and the student will be required to withdraw. If they submit Extenuating Circumstances and they are accepted as valid, the Board of Examiners may be able to offer additional assessment opportunities, such as reassessment for uncapped module marks or voluntary reassessment, in line with the Extenuating Circumstances [Policy](#) and [guidelines](#).

4.1.2 Where the Board of Examiners permits a student to have a second attempt at the assessment for a module this only applies to any individual assignment/examination for the module that has been failed. A student cannot be permitted to repeat a module unless permitted by the Board of Examiners because of extenuating circumstances accepted as valid.

4.2 Resubmission of Dissertations or equivalent

- a) Resubmission of dissertations or equivalent is only permitted in the following circumstances:
 - i) Either extenuating circumstances accepted as valid by the Board of Examiners; or
 - ii) Where the original mark awarded is at least 40 and the Board of Examiners judges that the work required to pass does not include any additional experimental or practical work.

- b) Resubmission is subject to the following conditions:
- i) A dissertation or equivalent must normally be resubmitted within two months of the formal notification of permission to resubmit; in cases of extenuating circumstances, this may be extended to a maximum of twelve months;
 - ii) A dissertation or equivalent which has been resubmitted because of a marginal fail shall be awarded no more than a maximum mark of 50; in the case of resubmissions because of extenuating circumstances, the full range of marks shall be available to examiners.

5. ASSESSMENT PROCEDURES

5.1 Powers of the Board of Examiners

The Board of Examiners shall have the following powers:

- a) Confirming the taught module marks achieved, including any resit marks for reassessment presented to the Board, and awarding credit;
- b) Confirming the mark for the dissertation or equivalent, including any mark for resubmission;
- c) Confirming any opportunities for second attempts at the assessment reassessment for modules, including resubmission of the dissertation or equivalent; and any opportunities for condonement;

- e) Confirming the assessment for the clinical elements;

- f) Confirming any opportunities for resubmission of the dissertation or equivalent;
- g) Confirming the End Point Assessment for the MSc Advanced Clinical Practitioner Apprenticeship;

5.2 Extenuating Circumstances

If you submit Extenuating Circumstances and they are accepted as valid, the Board of Examiners may be able to offer additional assessment opportunities, such as reassessment for uncapped module marks or voluntary reassessment, in line with the Extenuating Circumstances [Policy](#) and [guidelines](#). When extenuating circumstances are accepted, the Board of Examiners will use its discretion to determine what if any action should be taken in accordance with the powers set out in the Policy. Except in the case of accepted extenuating circumstances, Boards of Examiners do not have powers of discretion in relation to the application of the Rules of Assessment.
