

The Grounds team are carrying out works to the trees outside of the Sports Centre, 07-08 November 2024. Please be assured that they are working hard to minimise disruption, however there will be some noise as branches are cut. There will be two different diversions in place. Signage and barriers will be in place to direct pedestrian traffic as applicable. **Only one diversion will be in place at a time.**

Diversion 1: The pathway along the front of the Sports Centre will be closed off. Access will be available through the south towers or through the main pathway from the Sports Centre towards the Lecture Theatre Building.

Diversion 2: The main pathway from the Sports Centre towards the Lecture Theatre Building will be closed off. Please make use of the pathway through the Eddington and Bertrand Russell towers, before rejoining the path at the Lecture Theatre Building.
